

Pain Medications

Due to new FDA findings regarding the danger of Tylenol with Codeine in children with Obstructive Sleep Apnea, we are now required to prescribe Oxycodone for post-surgery discomfort. Oxycodone is a highly controlled substance. Therefore, it is available at very few pharmacies. Of these, our office recommends Cherry's Pharmacy.

Please register prior to surgery at:

Cherry's Pharmacy
207 East 66th Street
212-717-7797

You will be able to pick up the medication on the day of the surgery.
